## No. 1 firm for your engineering solutions

UNDERLINING its status as the leading company for engineering solutions, Roger Bullivant has been selected to work on some of the most prestigious projects in Gibraltar.

Over the years, the company has been involved with a number of Gibraltar's leading commercial organisations. Already a trusted presence on the Costa del Sol, Roger Bullivant has also been 'making its mark' in Gibraltar over the last 10 years.

The reason is quite simple - Roger Bullivant is relied upon by some of the biggest commercial organisations to deliver engineering solutions in the most complex and challenging environments.

From ground engineering solutions at Gibraltar International Airport, to underpinning at The Law Courts, to the success of the Ocean Village Luxury Floating Hotel, to the completion of piling works for the development of No. 6 Covent Place (an

esteemed address in Gibraltar), Roger Bullivant has been closely involved.

Now the company is proud to announce its involvement with The World Trade Centre in Gibraltar. The WTC is a

From left to right: Andrew McGowan (Director), Fernando Soriano (Operations Manager) and Gabriel Laca (General Manager). Our specialist team work both in Spain and Gibraltar and have a wealth of expertise and experience - over 30 years between them.

Director, Andrew McGowan (right) speaking with Fabian Picardo (left), Chief Minister of Gibraltar

globally recognised brand located in more than 90 countries worldwide. The WTC (Gibraltar) is due for completion by 2015.

The traditional Breaking Ground Ceremony, which took place at the site of the WTC on July 21, was attended by Gibraltar's Chief Minister, Fabian Picardo, and the Chairman-Owner of Ocean Village, Mr Greg Butcher, amongst many press and other dignitaries as the model of the WTC was unveiled.

Roger Bullivant's Director, Andrew McGowan, and

Operations Manager, Fernando Soriano, were also in attendance, having an important role in ensuring the company's rigs were correctly positioned for the ceremony and to highlight their involvement in such a momentous occasion.

The event was televised by Gib TV and the focus of the Gibraltar press as well as making an appearance on YouTube.

The company offers a

range of engineering solutions in a wide variety of fields from underpinning to piling and slope stabilisation to construction.

They work with leading commercial organisations, municipal authorities, and on residential projects in both Spain and Gibraltar.

For a full list of their services please visit their regularly updated website: [www.rogerbullivant.eu](http://www.rogerbullivant.eu) and fill in the contact form. Alternatively email: [admin@rogerbullivant.eu](mailto:admin@rogerbullivant.eu) or call into their offices based at Benavista, Estepona between 8.30-5.30, Monday-Friday.

Their friendly and efficient English and Spanish speaking staff are always willing to assist and take details of your enquiry/interest.
